Government School of
Indian Medicine, Madras,
2nd May 1930.

THE GOVERNMENT SCHOOL OF INDIAN MEDICINE, MADRAS.

Examinations.

The school works in three sections: viz., Ayurveda, Siddha and Unani.

3. The school is intended to provide such training to the student as will enable them to become competent practitioners of Indian systems of medicine with a good working knowledge of the western system also. It is with this end in view that provision has been made in the school not only for the proper training of students in Ayurveda, Siddha and Unani but also for giving them courses of instruction in such subjects like Modern Anatomy, Physiology and Surgery in all its branches, including Microbiology and Ophthalmology. Facilities have also been made for clinical teaching (both wet-dress and hospital) as well as for Herbarium, Museum, Library, etc. The general studies of History, Geography and English are the general studies of instruction, but subjects of western medicine are at present taught in English. It is hoped, however, that vernacular will soon be used as the medium of instruction for these subjects also.

Admissions.

4. The number of admissions is for the present, fixed at a maximum of 150 per annum. Candidates who fail to secure a pass at their annual examinations in the first year, of whom 50 will ordinarily be admitted in the Ayurveda section and 50 in each of the two sections Siddha and Unani. The vacancies occurring in any one section may, however, be filled up by admission in any other section provided that the total number of students does not exceed 150.

4. Selection will be made by a Selection Committee appointed by the Government.

5. The standard of preliminary general education required is a working knowledge of English in addition to proficiency in (a) Sanskrit or Telugu, (b) Tamil, (c) Urdu for admission in the Ayurveda, Siddha and Unani sections, respectively. Other

things being equal, preference will be given to candidates who pass at the Secondary School (Lawry) Certificate, especially to those who took up science subjects (Physics) or any other equivalent or higher qualification.

2. The school year of the school starts over a period of ten months consisting of two terms—a long term of six months from the beginning of July to the end of December and a short term of four months from the beginning of January to the end of April. The months of May and June constitute the school recess.

3. Candidates seeking admission to the school should not be below sixteen years of age at the time of their admission to the school.

4. (a) Applications for admission should be made before the 15th June in the prescribed form which may be had on application to the Principal. A registration fee of Rs. 5 should be paid into a Government Treasury or the Imperial Bank of India to the credit of "Government School of Indian Medicine, Madras—Free" and the Treasury or Bank receipt should accompany the application. No application will be registered without the production of such a receipt. The Registration fee will be returned towards the school fees in cases of candidates selected for admission who will also be required to pay into the balance due to complete the payment. The Registration fee will be returned to the candidates not selected for admission, but forfeited in the case of those who are selected but do not join or before the prescribed date.

(b) Estimates of admission will be duly sent to all selected candidates who should also pay their fees and join the school on or before the prescribed date.

(c) Every application for admission should be accompanied by the following certificates without which it will not be considered:—

Resolved that Mr. S. Pryor be granted the leave applied for by him.

89. Read a note by the Chairman stating that, with a view to regularizing the payment of overtime wages to the class of employees known as "dockmen" in the Trust's Dock Department, a scheme has been considered, the three items with effect from the month of March 1930 under which each dockman posted for fully work is allowed overtime at the rate of two days' pay for each day worked, in excess of the number of working days in each month, excluding Sundays and holidays in the month, irrespective of whether the work moved out was on Sundays and holidays or working days or by night or by day. In addition, to compensate him for his long hours of work, each dockman engaged in fully work will be entitled to one hour's overtime for every day that he works in each month. In the case of men posted for work, other than fully, while the first part of the two benefits above referred to will apply, the second part will not so apply to any of their shorter hours of duty. The Chairman requests attention to this scheme.

Resolved that the scheme proposed be sanctioned.
